

EMEK ELMAS MERMER

MADEN SAN. ve TİC. LTD. ŞTİ.

“ We are harnessing our local natural stone resources to enhance our production, and we take pride in contributing to the economic growth of our country. “

Our Company's Journey

As the first marble business in the Karadeniz Ereğli area, our ultimate goal has been to showcase and promote not only our business name but also the natural stones unique to our region. This endeavor is aimed at the progressive expansion of our target market, reaching not only within Turkey but also across the world.

We established our marble business in Karadeniz back in 1992, pioneering and maintaining our position as the leading powerhouse in the entire region. In 2015, we further advanced our growth and development by acquiring a second factory in Bilecik, Turkey.

With a transformation of the original foundation from 1992, occurring 26 years after the honorable journey began, Mr. Elmas emerged as the visionary leader driving changes necessary for the company's worldwide recognition and success.

Throughout human history, the use of marble has symbolized power and magnificence. Recognizing this, our commitment to modern-day quality and service propels us further ahead. This dedication has forever altered the trajectory of marble's history.

Mr. Elmas is dedicated to producing a variety of stone types, catering to multiple countries around the world. Through these investments, his goal is to propel both his company and the planet towards greatness.

Our Mission

We deeply value honest and quality customer service. In every aspect. We strive to be the best in everything that we do.

A large industrial saw is cutting a thick block of stone in a factory setting. The saw is mounted on a large metal frame and is positioned above the stone block. The stone block is resting on a wooden pallet. The background shows the industrial structure of the factory, including metal beams and a corrugated metal roof.

Our Vision

Despite competitors and global businesses that constantly developing, we aim to grow rapidly and also work very hard to represent Turkey in the best way possible.
